

Zak Doors & Windows Expo is India's first and leading exhibition on Doors, Windows & Façades which will start from 06th to 09th December 2018 at MMRDA Exhibition Center, BKC, Mumbai, India. The display profile of the show has a mix of machinery, systems, profiles, cladding products, façade elements, accessories & finished products. It has emerged as the most effective marketing medium for manufacturers, traders and service providers pertaining to the façade and fenestration gamut of India. The event is held concurrently with the Zak Aluminium Extrusions Expo which is an exhibition dedicated to aluminium extrusions and its allied products and Zak Glass Technology Expo which is focused on glass processing technologies & products. This allows the show to derive synergy from the concurrent events.

Zak Doors & Windows Expo is a front runner in disseminating knowledge, innovation and introducing latest technologies and customized solutions from across the globe in the field of façade and fenestration. By providing a viable platform for information exchange to the industry geniuses, the show has consistently proven to be a favorite amongst the exhibitors from across the world, who are looking for opportunities to showcase their products and technologies in this field.

The show alternates between New Delhi & Mumbai every year. Running into its 15th edition this time, the exposition provides numerous synergistic benefits and offers the trade visitors a broad range of innovative, technology driven and advanced solutions from across the globe, in the field of façade and fenestration under a single umbrella.
